EXPERIENCE

Insmmed Incorporated

IT Support Engineer

Bridgewater, NJ

August 2024 – Present

- Built and manage internal IT knowledge base with 100+ articles, integrated with Moveworks AI chatbot to enable automated issue resolution.
- Created 20+ runbooks for 24/7 support team to standardize incident response.
- Produce and edit onboarding video content in Premiere Pro, replacing live orientation sessions (pending Corp Comms approval).
- Overhauled ServiceNow self-service catalog – standardized metadata, categorized provisioned software, managed change through Change Control.
- Test ServiceNow instances and features; submit project plans via Orchestra PMO.
- Audited mobile inventory in AirWatch, reconciled active lines with vendor, uploaded to AlertMedia for 24/7 support team.
- Support IT compliance audits and employee offboarding processes.
- Resolve 10+ tickets daily including incidents, service requests, and hardware fulfillment.

Insmmed Incorporated

IT Support Engineer Intern

Bridgewater, NJ

May 2024 – August 2024

- Cleaned up 300+ devices in Active Directory in three days, improving database accuracy by 25%.
- Built ServiceNow workflows, scripts, and catalog items for hardware project with full documentation.
- Resolved 200+ on-boarding tasks in one week, ensuring new hires met start dates.
- Supported IT SOX Audit compliance by collecting FAIT documentation.
- Created laptop configuration and account deployment procedures for vendor use.

Rutgers University Office of Information Technology

Help Desk Consultant

Piscataway, NJ

July 2022 – August 2024

- Promoted from Level 1 to Level 2 support within four months.
- Resolved technical support tickets via email, phone, and in-person.
- Installed, configured, and troubleshoot software and hardware.
- Supervised and trained Level 2 consultants on escalated calls and email review.
